Hospice of Michigan - The Final Journey: Hospice Core Concepts

July 8, 2011

3:00pm - 4:00pm

Butman-Fish Library

1716 Hancock, Saginaw

Meeting Room

Module 1 Overview

This introductory module defines critical concepts like palliation, core services, quality of life and the approach of total care to both patient and family. The broad societal trends and events that lead to the creation and evolution of the hospice industry are also discussed.

Learning Objectives are:

- Describe how our current views of dying and death have been shaped by our American history
- Differentiate between the terms hospice care and palliative care
- Identify the essential elements of hospice care
- Describe the relationship between quality of life and suffering
- Describe how collaboration among all members of the care team can improve the quality of life for hospice patients

This one hour training is appropriate for nurses, social workers, discharge planners, direct care staff, case managers and any other staff working in acute care and long term care settings who would like to learn about hospice care principles and concepts.

REGISTRATION INFORMATION

There is no fee for attending this presentation however -

Evaluations

Be certain to sign in and out to obtain CEU certificate.

The East Central Michigan LTC Best Practice Group is a group of local persons who desire to advance and advocate for the needs of persons residing in long term care facilities. We support *person centered best practices* and programs with strategies that enable residents/customers and staff to have meaningful relationships in a home-like environment created by persons served.

If you would like information on how to become more involved in the ECMi LTC Best Practice Group contact:

Cheryl Carlevato 989-797-4529 or at ccarlevato@sccmha.org

The ECMi LTC Best Practice group does not represent a local agency, facility or any provider of healthcare delivery or long term care services.
