

MMR AND SCCMHA HELP MAKE A DREAM COME TRUE

Arthur Yacks (right), a Frankenmuth resident and quadriplegic, met his inspiration and role model mouth-stick artist Will Pardee (left), who was paralyzed in a diving accident in 1981. Nancy Urban of Saginaw County Community Mental Health Authority, who provides intermittent care for Yacks, recognized one of Pardee's drawings above Yacks' bed at TenderCare in Frankenmuth. She then made arrangements, with help from Mobile Medical Response, for Yacks to meet Pardee at the 50th annual Michigan Activity Therapy Conference on September 24 at Valley Plaza Resort in Midland.
