Purpose:

The purpose of this policy is to ensure consumers of mental health services receive their treatment in the least restrictive setting possible.

Policy:

It is the policy of SCCMHA that all consumers are afforded the treatment necessary for them to achieve Recovery in the least restrictive setting.

Application:

This policy applies to all staff of SCCMHA as well as the Service Provider Network.

Standards:

- P1) SCCMHA offers mental health services in the least restrictive setting that is appropriate and available.
- P2) A consumer shall receive mental health services suited to his or her condition.

Definitions:

Least Restrictive Setting: The setting where appropriate treatment can be provided with the least amount of restrictions placed upon the consumer. An example of this would be a consumer may meet the criteria for inpatient hospitalization, but if the services can be provided to the consumer in a crisis residential placement, this option should be offered to them if it is appropriate to the circumstances. A crisis residential placement offers the consumer more freedom than an inpatient hospitalization.

Support Staff: Case Manager, Supports Coordinator, or Therapist
